

Anytime

UBS Bancomat Plus for deposits and withdrawals, account information and topping up credit on your mobile phone – whenever you feel the need

With UBS Bancomat Plus you can conduct your banking business without having to worry about bank counter opening times or Internet access. You are free to make deposits and withdrawals in Swiss francs and in euros, check account information and load your mobile phone whenever it's most convenient to you. It's flexible, fast and easy.

Benefits

- You are not limited by bank-opening hours.
- You can make deposits and withdrawals at the same ATM.
- You can make your deposits in Swiss francs or in euros.
- Your deposits are credited to your account immediately and start earning interest right away.
- Business may request the number of deposit cards needed for use by their employees, completely free of charge.

What is UBS Bancomat Plus?

UBS Bancomat Plus is an alternative to the bank counter. You can recognize UBS Bancomat Plus by the sign "Withdrawal/Deposit" above the ATM.

How does UBS Bancomat Plus work?

UBS Bancomat Plus is simple to use and guides you on every step of the way when making a deposit. See for yourself how easy it really is. Why not give UBS Bancomat Plus a try?

Please note the following when making deposits:

- Only use banknotes denominated in Swiss francs or in euros.
- Remove foreign objects such as paper clips, rubber bands, banderoles, post-it notes, etc. from the notes before proceeding.
- Sort out damaged or soiled banknotes and put them aside.
- Do not put any coins in the deposit slot.
- Place no more than 150 banknotes at a time in the middle of the deposit slot.

Step-by-step instructions for making deposits

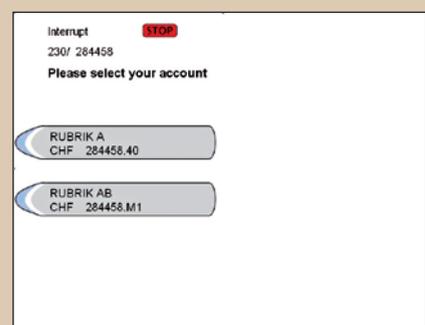

1. Insert card

Insert your UBS Deposit Card, UBS customer card or UBS Debit Card (V PAY/Maestro) in the card slot with the printed side facing up.

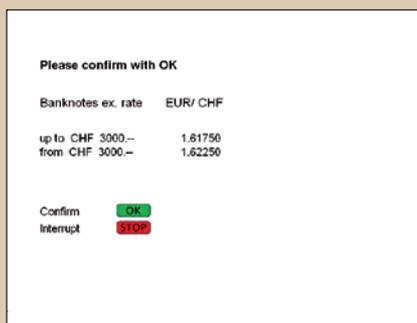

2. Select a function

Select **In-payments CHF** or **In-payments EUR**.

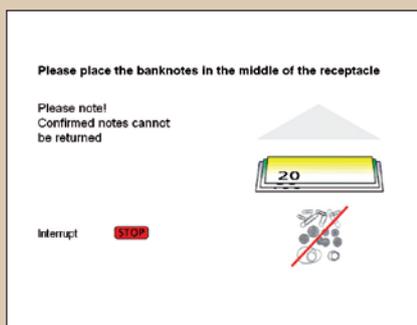

3. Select an account

Select the account which is to be credited with your deposit. This screen is only displayed if there is more than one account to choose from. Otherwise you will be taken directly to screen 4 or 5.

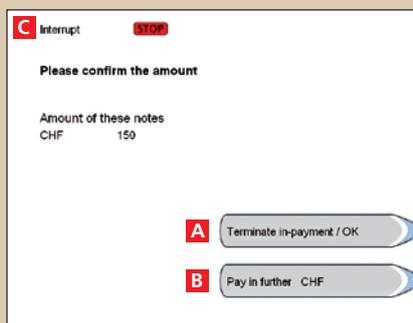

4. Confirm the conditions

If you select the **In-payments EUR** function or a euro account to be credited, the exchange rate is displayed. Accept this rate by pressing **OK**.

5. Insert the banknotes

The left or right slot now opens. Place up to 150 banknotes unfolded in the deposit drawer. Make sure that no foreign objects (paper clips, rubber bands, band wrappers, coins, etc.) are placed in the drawer. Do not put any damaged or soiled banknotes in the slot. The banknotes are taken in and their authenticity is checked.

6. Select options

The UBS Bancomat Plus counts the banknotes and displays the amount on the screen. Now, select one of the following options:

A Terminate in-payment/OK

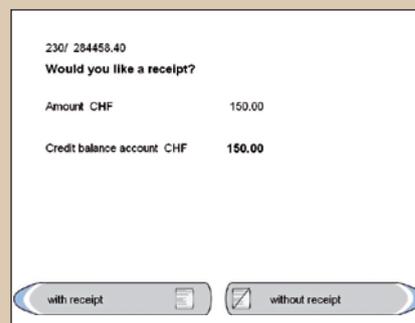

Once you have completed your deposit transaction, press this button. The total amount displayed is credited to the selected account (go to step 7).

B Pay in further CHF (or EUR)

To continue depositing banknotes, press this button. The counted and confirmed banknotes are deposited in the ATM's safe, the slot reopens and you can deposit up to another 150 banknotes. Repeat this simple step until you have completed your deposit transaction. If you make several deposits, the amount of the most recent deposit is displayed on the screen as is the total of all banknotes deposited. Once you have completed your deposits, click on **Terminate in-payment/OK** (go to step 7).

C Interrupt payment

The banknotes are returned to you and the deposit is canceled. If you have made several deposits, only the last one will be returned to you, while the bank notes deposited previously will be credited to your account.

7. Request a receipt

Finally, you can choose whether or not you would like to have a receipt for your deposit.
